

# Electric fish scale remover

# SALMON SCALER

AST-150 -Right-handed use -

Patent pending

Proprietary design of rotating blades

Proprietary design of 10 blades with angles that can completely remove even fine scales!

Commercial use

The motor is built into the main unit, so the rotating blades and grip can be washed with water!

Includes safeguards

A safety feature that automatically turns it off when it senses an unusual load!

Wall mounting

Includes wall mount brackets

Ideal for salmon scaling

## Uses

- Seafood processing plants
- Supermarkets
- Sushi restaurants, bars, and other dining establishments
- Hotels, inns, etc.
- Workers in the fisheries industry

It is perfect for scale removal of any size of salmon from small to large. The conical shape blade is also good for herring, haddock, tilapia, halibut, and so on.

### Rotation speed knob

- Depending on the size of the fish, the speed can be adjusted up to 4,500rpm!
- Features a water-proof design that is safe to touch with wet hands!

### Motor

- A high-capacity motor with a maximum output of 130W! It is quiet when running with minimal vibration and low noise!
- When a towel, fingers, etc. gets caught in it or in similar situations when it senses an unusual load, it will automatically shut off as a safety feature!

### A safety cover for the rotating blades

- A slim form that helps prevent scales from flying up.

### A flexible shaft

- There is no motor in the grip section, so you can wash it together with the rotating blades for excellent sanitation!
- The grip is thin and uses a slip-resistant rubber that is comfortable to hold for a long time!

### Rotating blades

- The proprietary design including 10 blades with angles means that it will completely remove even fine scales.
- To avoid damaging the fish, the blades have rounded corners.
- It is made of stainless steel with electrolytic polishing treatment applied, making it very easy to clean and remove dirt!

The unit must be installed on the wall when you place it at a high place

Wall mounting

On the work table

Do not expose water

[ Specification ]

※ This product is for right-handed use.

Product name	ELECTRIC SALMON SCALE REMOVER
Model	AST-150
Power	100 - 240V 50/60Hz
Main unit dimensions	200 x 110 x 150mm
Main unit weight	2.2kg
Handle section weight	480g
Rotation speed	0~4,500rpm (rotates to the right)
Flexible shaft length	1.5m / 2.0m (Build-to-order)
Maximum power consumption	130W
Electrical cord length	1.5m
