Packaging For Restaurants, Supermarkets, Bakeries, Confectionery shops, Meat stores, Industrial factories

Two-in-one automatic vacuum sealer ASV-320D Highly versatile model

ASV-320D [PDF Hyperlink](#)

For restaurants, supermarkets, grocery stores and so on

Both bags can be used

Standard vacuum bags

Embossed vacuum bags

Compact body / Light weight 4.4kg / Ideal as an entry model

W394×D266×H176mm 100 ~ 240V 50/60Hz Seal length 300mm Seal width 5mm
Pump efficiency -80Kpa Vacuuming speed 7 ℓ / min
Available bag thickness ~ 0.24 mm, flat bag

Ultrasonic sealer weld plastic materials at a point or dotted line

Applications; For food packs, clamshell packs, plastic bags, labels, and other plastic materials.

Insert the sealing surface between the teeth and press. The handpiece generates ultrasonic waves and welds by heat in two seconds or less.

Point sealer / Complies with CE standards

You can easily weld plastic materials like a stapler but with no staples.
W179×D183×H66mm / 1.2kg
Oscillation frequency : 57kHz
Max. output : 20W / 100V - 240V 50/60Hz / 40VA

Dot-line sealer

It is possible to seal plastic materials by dot-line.
W179×D183×H66mm / 1.2kg
Oscillation frequency : 57kHz
Max. output : 20W / 100V - 240V 50/60Hz / 40VA

Table Top Impulse Sealer

Simply apply light pressure to table with both hands to seal tightly.

Ideal for sealing bags that provide protection from light, moisture, discoloration, loss of fragrance and is also perfect for use with silicagel packs.
340x170x300mm / Single : 4.5kg, 580W / Dual : 6.7kg, 1100W

Levered structure

High durability frame

-Sealing length:
300mm(11.8in)
-Sealing width
5mm
(0.197in)

AZ-300S

Single-heating 100V / 220V

For thin or thick
single-layer
film bags.

Heating element is mounted on lower side. This model is suited for non-overlapping plastic bags.

-Sealing length:
300mm(11.8in)
-Sealing width
8mm
(0.315in)

AZ-300W

Dual-heating 100V/220V

For metalized
bags and thick
gazette bags.

Heating elements are mounted on both sides.

Hand Wrapper

Easy to use hand wrapper for packaging food to preserve the freshness.

Tension
adjustment

Antistatic
roller

Available in
any stretch
film

Non stick and
durable heat
resistant blade

U-450JP

Open type 100V/220V

High Corrosion Resistance : GALVALUME BODY

High energy efficiency :

It does not waste electric power and keep target temperature stable.

504x600x131mm / 5.7kg

100V 50/60Hz, 220V 50/60Hz / 165W, 185W

Up to 450mm(17.7in) wide wrapping film

B-450JP

Box type 100V/220V

504x450x200mm / 6.4kg

100V 50/60Hz, 220V 50/60Hz / 165W, 185W

Up to 450mm(17.7in) wide wrapping film

S-20 Insect trap adhesive tape

Adhesive resin tape with sustainable adhesive force

Holds the dead insect on the adhesive tape to maintain environment clean.
The special adhesive resin sheet that can sustain adhesive force more than one year from the start of use has the highest level of capture force in the industry.

Even if only a leg of an insect touches the sheet, it can capture the insect, as the sheet has a thick adhesive layer.

Keeps its stickiness for more than 3 years in stock, 1 year in use.

Application example

-Restaurant-

It is possible to choose suitable models according to the purpose of use.

TOGISHI

Usable Unusable
Stainless kitchen knife, Kitchen knife made of iron and steel and so on, can be sharpened. **Do not use this sharpener for a ceramic knife.

Improve the taste and tenderness of cuts of meat

The edges of blades are crafted in a 'U' shape. With the blades becoming narrower in the middle, this guarantees to cut through all of the fibres.
